

What Kind of Stock Are You Raising?

Can You Afford to Handle Anything Less Than the Best?

In the minds of farmers and stock men who have seen our stock there is no question about the quality of the splendid animals in our breeding barn.

If you have not seen our horses and jacks it will pay you to make a trip to our barn. Inquiet and Lookout are two of the finest specimens of the Percheron you ever saw, and you will say so when you see them.

Inquiet, Imported Percheron Stallion, recorded in Percheron Society of America No 81864, American No. 69866. Color, Grey. Foaled April 15, 1908. Will mature to about 2500 pounds.

Lookout, No. 1795, recorded in the United States Horse Register incorporated under the laws of the State of Illinois.

Duke, No. 2765. Sire, Victor Jr. 878. Dam, Maude 1794. If you are raising mules breed your mares to a registered jack. Blood tells.

Dave, a fine black jack 15.1 high, of the famous Mammoth stock.

Service fee, to insure, \$15 for the horses and \$10 for the jacks.

METZGER BROS.

8 miles south and 8 east of Jasper, on the base line. Positively no business on Sunday.

Attention Farmers AND STOCKMEN

Last fall owing to the dry season the farmers did not commence building their silos in time. Several who wanted silos didn't get them on account of the drouth. So we give the public notice in time so they will not be rushed and we can give you more for your money. We now have nine silos erected and not a fault has been filed against any of them. We want to announce that the

METAL LATH CEMENT SILO

has come to stay. There is no rot, no guy wires, and every one-half inch is reinforced with steel. We are prepared to take care of all on short notice and give you as good a silo as there is on earth for the money. See us for contract and a square deal.

Don't Spray and Lose Much.

Failure of Missouri orchardists to spray their apple trees cost them ten million dollars last year, F. B. Mumford, dean of the Missouri Agricultural College, said in a speech to horticulturists, meeting at Independence, Mo., Saturday.

"The Missouri farmer might have made his crop of apples worth twelve million dollars," he said. "Instead of the official figures of \$1,645,188, which represents the total value of the 1913 apple crop of the state. Failure to properly spray their orchards robbed the farmers of the difference."—Kansas City Times.

Gives Away Fine Calf.

A bunch of seven dairymen of Galena township in this county have arranged to co-operate and avail themselves of one of Col. W. H. Phelps' registered Jersey bull calves which he is giving away to groups of dairymen in different parts of the county. The seven are Prof. M. H. Thadum, S. M. Brown, R. J. Ristine, S. D. Winterholm, W. S. Mitchell, N. S. Freeman and H. A. Wilson.

They sent a committee over to make the selection and bring the animal home. They were much pleased with the calf and his dam. The mother has a fine milk and butter record. This is the sixth calf Col. Phelps has thus sent from his herd and the seventh has been selected to go to some Jasper farmers and will be delivered this week.—Carthage Press.

Spring Blood and System Cleanser

During the winter months impurities accumulate, your blood becomes impure and thick, your kidneys, liver and bowels fail to work, causing so-called "Spring Fever." You feel tired, weak and lazy. Electric Bitter is the spring tonic and system cleanser. It cleans your blood, stimulates the kidneys, liver and bowels to healthy action, expels blood impurities and restores you with strength and ambition. Electric Bitter makes you feel like new. Start a four weeks' treatment. It will put you in fine shape for your spring work. Guaranteed. All Druggists 50c and \$1.00 at H. F. Pitts.

Remember we are headquarters for

Sweetheart Flour

The best flour on the market. We also have a carload of S & S fertilizer, special corn and oats grower. It contains more potash than any other corn and oats grower on the market. It takes potash to make the ear or stalk. You have to grow the stalk to get the ear, as it would be impossible to build a house without a foundation. We still have some Texas Seed Oats cleaned and ready to sow.
